Dear Mr. Wood:

Under separate cover I am mailing you several issues of Zest which contain stories and illustrations on the beginning and development of coinage. As you will readily see,they do not purport to be in any sense scientific discussions,but rather to arouse the child's interest in a subject which is not likely to be called to his attention.

As further editions of the little paper come out,I will forward copies to you.

Let me take this opportunity to thank you for the kind assistance and advice which you gave me in preparing the material. I regret that I am not better informed on the subject so that I can do justice to the coins you had photographed for me.

Again thanking you for your co-operation,I am,

Yours very truly,

Frances Wrigley
